

CSS Shorthand Cheat Sheet

margin, padding, border-width, outline-width:

specifying 4 parameters:

border-color, outline-color: #xxx #xxx #xxx #xxx
or
border-style, outline-style: solid dotted dashed double

specifying less than 4 parameters:

(one:) 1un
1un 1un 1un 1un

(two:) 1un
2un 2un 2un 1un

(three:) 1un
2un 2un 2un 3un

border, border-left, border-right, border-top, border-bottom:

default: medium none #xxx;
(width) (style) (color)

(leave style out & it defaults to none, making the width zero!!!)

example: 3px solid #888;

list-style: **default:** disc outside none;
(type) (position) (image)

(type becomes default when image not found!!!)

example: square outside url('star.png');

background: **default:** white url('back.png') repeat top left scroll;
(color) (image) (repeat) (position) (scroll)

example: black url('starrynight.png') repeat bottom right fixed;

font: **default:** normal normal normal inherited-value/normal inherited-value;
(style) (variant) (weight) (size) (line-height) (family)

example: italic small-caps bold 1em/1.2em helvetica neue, helvetica, sans-serif;
(do not try this [ugly] example at home!)

pause:
example: pause: 1s;
(one attribute sets both pause-before && pause-after!!!)

cue:
example: cue: url('sound.au');
(one attribute sets both cue-before && cue-after!!!)

colors:
#xyyyzz == #xyz
